

Pet Name: Luna

Species: Cat

Breed: Domestic Shorthair

Age: 2 years

Owner: Emma Wilson

Visit Date: October 8, 2023

Luna was brought in today after vomiting for 2 days and showing signs of lethargy. Physical exam revealed mild dehydration and abdominal discomfort. Blood work performed to rule out any infections. Results show no significant abnormalities. Administered fluids subcutaneously. Prescribed anti-nausea medication (Cerenia) and advised owner to monitor food intake closely. Will follow up in 48 hours if symptoms persist.

Procedures:

- Examination: \$90
- Bloodwork: \$110
- Subcutaneous fluids: \$75
- Medication (Cerenia): \$25

Total cost: \$300

Vet: Dr. Robert Jenkins
